

SIMPLOT FERRO-CIOUS SUMMER

Turf-grass Toughening and Greening

SIMPLOT FERRO-CIOUS SUMMER is a next generation formulation designed to assist in summer turf-grass toughening and greening.

Simplot Ferro-cious Summer contains potassium, iron and magnesium all in the citrate form. This combination of nutrients will assist in both hardening of turf grass and the development of natural green-up.

Iron applied to turf will create the production of excess chlorophyll thus giving a longer-lasting deep green appearance. The magnesium and nitrogen will aid in the formation of chlorophyll along with the Iron.

STABILISED NITROGEN:

Simplot Ferro-cious Summer has a balanced NPK which is essential for maintaining summer growth and quality. In addition, the nitrogen component is in the form of stabilised nitrogen. This will allow more controlled release of the nitrogen and growth rates for the turf.

DIRECTIONS FOR USE: TURF

Rate: 200 - 500 mL / 100 m²

APPLICATION NOTES:

Rate: 4 - 10 L water / 100 m²

Apply as required to improve colour and strength.

PRODUCT ANALYSIS

			w/v%
Nitrogen	(N)	as Stabilised Nitrogen	15.0
Potassium	(K)	as Citrate	15.0
Iron	(Fe)	as Citrate	4.0
Magnesium	(Mg)	as Citrate	2.0

PRODUCT SPECIFICATIONS

S.G:	1.38
pH (Neat):	4.0 - 5.0
Appearance:	Olive green liquid
Shelf Life:	3 years

AVAILABLE PACK SIZES & WEIGHTS

5 Litre:	7.1
20 Litre:	28.6
200 Litre:	285.6
1000 Litre:	1460.0
